Pittsburghers Alive to Importance of River Improvement.

ARRANGING THE COMING VISIT

Of the House Rivers and Harbors Committee to Wheeling and Pittsburgh—The Unexpected Rise in the Ohio—A Small Shipment of Coal being Made from Pittsburgh—Hudson's Fast Trip up the River.

Yesterday morning Congressman Dovenor and Chairman Hart, of the Wheeling chamber of commerce committee on river improvement, went to Pittsburgh for the purpose of conferring with the Pittsburgh river people relative to the visit of the congressional committee on rivers and harbors to the upper Ohio this spring, when the river will be inspected from the palatial Parkersburg, Virginia, of the Cincinnati line, from Pittsburgh to Wheeling, and possibly on to Parkersburg.

They talked with Captain James A. Henderson, Captain Dravo and other gentlemen representing the coal exchange and chamber of commerce, and found the entire river interests thoroughly aroused to the importance of the visit of the committee in its bearing on government improvement of the river. It was not thought advisable to fix the date of the visit at this early day. The matter will be attended to in a few weeks and the river people will be given ample notice.

The present rise in the river came rather unexpectedly. None of the river people were looking for the highest water of the year at this time. Last night's report from Pittsburgh showed 12.7 feet and still rising. With the expected 14 or 15 feet at Pittsburgh there should be 18 to 22 feet at Wheeling. On account of the recent run of coal there is very little coal ready to go out on the present rise. Up to noon yesterday only two boats had left Pittsburgh, as follows: Dick Fulton with twelve pieces and the Enterprise with eight pieces. More coal will go out to-day and to-morrow, the total shipment reaching perhaps 4,000,000 bushels.

Clarion...JEWELL, 8:30 p. m.

The Ben Hur got on from Pittsburgh at 4 p. m. and got away for Parkersburg an hour later after having added heavily in freight.

The Lexington got in last night from Matamoras with a good trip, and the Liberty arrived later with lots of freight and passengers. Both leave this morning for lower ports at the same hour, 11 o'clock.

The marks at 8 p. m. showed 12 feet 6 inches and rising. Rise of 4 feet 4 inches in twenty-four hours. The weather bureau people predict 12 to 14 feet at Pittsburgh to-day, which would make the top-notch of the rise here at least 16 feet and probably more.

The officers of the Virginia, taking her recent performance into consideration, express the opinion that the new boat will be the fastest the upper Ohio. Up to date her compound machinery has not been given a severe test, but it has worked without a hitch and it is believed will send the boat up the river faster than anything yet seen here.

The Hudson is making one of the fastest trips up the river made in several years. She left the Queen City on Saturday evening at 5 o'clock and arrived here last evening at 7 o'clock, making the run of 377 miles in 50 hours, including all the stops en route. She was not due here until this morning at 7 o'clock. The old Katie Stockdale once made the same run in 52 hours.

Morgantown—River 11 feet 3 inches and rising; a rise of 3 feet to-day. Raining.

Oil City—River 5 feet 6 inches and stationary. Cloudy and mild. Light rain commenced last night and continued to fall until 5 p. m. to-day.

Warren—River 22 inches. Light rain and snow.

Greensboro—River 12 feet 2 inches and falling. Rainfall 20. Cloudy.

Pittsburgh—River 12.1 feet and rising at the dam. Weather raining.

Steubenville—River 14 feet 6 inches and rising. Cloudy and cool. Down—Ben Hur, H. K. Bedford and Keystone State.

Guy Brothers' Opening.
Guy Brothers' minstrels opened a "three nights' engagement at the Grand last night to an audience which crowded the theatre, and judging from the laughter and applause the performance gave the best satisfaction. The first part in which numerous ballads and comic songs are rendered is interspersed with jokes from four funny men. The songs are generally new and nicely sung. The drum major act of Fred Smith is an artistic feature of this portion of the performance. The olio introduces a number of taking specialties. The performance concludes with a funny afterpiece entitled "Uncle Pete's Birthday," in which the entire company joins in the merry making. The Guy Brothers' show will be given again to-night, to-morrow afternoon and evening.

James B. Mackie.
The attraction at the Grand commencing Thursday evening for three nights and Saturday matinee, will be the popular young comedian, James B. Mackie, and a most excellent company of singers and dancers, in that very funny, farce-comedy, "Grimes's Cellar Door."

James B. Mackie will be favorably remembered for his clever work as "Grimes," "Me Boy," in the original company. "A Bunch of Keys," which part he played successfully for four seasons. His present work as "Billy Grimes," in the musical comedy, "Grimes's Cellar Door," is said to be far the best he has ever done and firmly establishes him as an original comedian of many accomplishments.

Hi Henry's Minstrels.
Of Hi Henry's Minstrels, which are to appear at the Opera House Saturday afternoon and night, the Richmond Dispatch says:

A lengthy and well-diversified bill was presented by the Hi Henry Minstrels at the Academy last night. The performance is thoroughly clean and refined.

Mr. Henry, with his old cornet, supported by his full band with beautiful double-belled instruments, was a feature of the evening's entertainment.

Seals for "Dr. Syntax."
De Wolf Hopper will be seen in his latest and greatest of all his comedies, entitled "Dr. Syntax," in

the city for the first time Thursday evening at the Opera House.

The favorite comedian will be supported by a most excellent company, which includes his charming young wife, Edna Wallace-Hopper; Bertha Waltinger, a delightful singer and clever actress; Alice Hosmer, a capital impersonator of eccentric character, as well as Ida Lester, Edmund Stanley, Alfred Klein, T. S. Guise, John Parr, H. P. Stone and many others equally well known. "Sprightly," "Dr. Syntax" will be presented here with its wealth of magnificent stage settings, brilliant costumes and novel mechanical effects. Reserved seats for the engagement will be placed on sale this morning at C. A. House's music store.

STATE SCHOOL BOOK BOARD.

It will meet in this City Next Saturday to Organize for Business.

Professor Crago, who is one of the members of the state school board commission appointed by the governor, under the provisions of the school book bill passed at the last session of the legislature, yesterday received a telegram from ex-Governor Fleming, chairman of the board, informing him that the first meeting would be held in this city next Saturday. Prof. Crago stated that he thought the purpose of the meeting was simply to organize and get in readiness for the work before the board, the members of which are ex-Governor A. B. Fleming, of Fairmont, Prof. Thomas Hodges, of Huntington, and himself.

It will be remembered that the school book bill passed last year designated the text books to be used in the public schools of the state for the next five years and fixed the prices to be paid for them. The bill provided that if any firm whose books were adopted should decline the terms of the act the governor should appoint a commission to make new contracts at prices not to exceed the prices named in the law. The American Book Company, whose arithmetic, spellers and readers were adopted by the act, having refused to contract at the prices and on the terms named therein, the governor appointed the commission above named.

As the contracts do not take effect until next July, the commission has ample time to make the selections. It is not known whether the sessions will be held in Wheeling, the present meeting being called here. It is understood, owing to the inability of Prof. Crago, who is just recovering from a severe attack of illness, to go to Charleston, where the meeting was first called, that the meeting was first called.

The liabilities of Wheelock & Company are \$255,000, assets not stated. The capital stock of the company is \$70,000. At the same time a motion was also made for the appointment of a temporary receiver for the Staystaves Piano Company on behalf of William Wheelock, Robert F. Tilney, Socrates Hubbard and Robert P. Historic Church Burned.

BOSTON, Feb. 3.—The historic first Unitarian church on "Meeting House Hill," Dorchester, a familiar landmark and the oldest church in the district, was destroyed by fire to-day. Four firemen were injured by a falling wall on the east side, which completely enveloped them, but they were rescued by their comrades.

Seems as if consumption always picks out the brightest and best.

Maybe it isn't so. Maybe it seems so because consumption is the most frequent of all diseases. Consumption kills more people than wars or Cholera or Yellow Fever. Fully one-sixth of all the deaths that occur in this country are caused by consumption. And consumption can be cured. Doctors used to say that it was incurable, but the doctors were merely mistaken. It would be strange if medical science did not make some progress. Many things were once considered impossible. The ocean steamer, the locomotive, the telegraph and telephone, the phonograph, the electric light—all these were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 95 per cent. of all cases of consumption. Consumption is a disease of the blood. It is caused by a diseased blood. It is caused and fostered by impurity in the blood. Purify the blood and restore the healthy action to the various organs of the body and consumption will be cured. It is by weakness and loss of vitality in the blood that is cured by purity and richness of the blood—surely, certainly cured. Those who have consumption or any lingering bronchial, throat or lung disease, and those who are on the road to them, have a positive remedy at hand. Any condition of the body that indicates weakness, any indication of impurity in the blood, should be caused to once. Loss of appetite, loss of flesh, loss of vitality, nervousness, weakness and unnatural weariness, are indications that the body is running down. Dr. Pierce's Golden Medical Discovery makes the appetite good, the digestion strong. It builds up solid, healthy flesh and vigorous strength. The words of people have testified that it has really saved their lives. Some of these testimonials, together with hundreds of things that everybody ought to know about health and sickness and medicine, have been embodied in Dr. Pierce's "Common Sense Medical Adviser." This 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, Buffalo, N. Y.
